## Specifications

|                             |  |
|-----------------------------|--|
| Power source                | Supplied from VX-3000 frame                          |
| Current consumption (value) | 2,0 mA   |
| Audio output                | Transformer balanced, 3-pin removable screw terminal |
| Power source                | Supplied from VX-3000 frame                          |
| Frequency response          | 40 Hz - 20 kHz ( $\pm 1$ dB)                         |
| Current consumption         | 2 mA   |
| Finish                      | Steel, surface-treated,                              |
| Operating humidity          | 90% RH or less, no condensation                      |
| Operating temperature       | 0°C - +40°C  |
