

AV/S-Video To VGA Converter Manual

Special Notification

Before using this product, please read this manual carefully. Please keep this manual for future reference. The company may change the fuction of product without notice.

Product Introduction

This video converter can convert AV/S-Video/VGA signal to VGA signal. It can support computers synchronous display. Support resolution up to 1920x1080. It supports plug-and-play, no driver program installation is needed. Used for playing popular movies from your PC to your big TV, so you can easily experience cinema effect.

Product Function

- 1. Support 1xAV,1xS-Video,1xVGA input;
- 2. Support 1xVGA ouput;
- 3. Supports below resolution: 800x600/60/75, 1024x768/60/75Hz, 1366x768/60, 1280x1024/60/75, 1400x1050/60, 1440x900/60Hz, 1600x1200/60, 1680x1050/60, 1920x1080/60, 1920x1200/60Hz;
- 4. 4. Support computer, AV, S-Video and VGA input;
- 5. Video system support: PAL or NTSC Plug & Play, no other software or hardware required.

(To prevail in kind)

Interface specification

- ① Video IN: AV signal input
- ② S-Video IN: S-Video signal input
- ③ VGA IN: VGA signal input
- ④ VGA OUT: VGA signal output
- ⑤ AV / SV / VGA: switch the AV video / S terminal / VGA signal
- ⑥ ZOOM: set the display ratio to 4:3, 16: 9, 16: 10 and full screen
- ⑦ PIP: PIP function (in the menu mode is "-" (minus) function)
- ⑧ MODE: set the image mode to Standard / Custom / Bright / Soft
- ⑨ MENU: set the language / brightness / contrast / chroma / hue and other related information
- ⑩ P.P: Press this button to adjust the S terminal / AV resolution and refresh rate ("+" (plus) function in menu mode)
- ⑪ DC 5V: power input interface

Packing list

NO.	Name	Qty	Remark
1	AV To VGA converter	1 unit	
2	Power adapter DC: 5V/1A	1 pc	
3	User manual	1 pc	

The matters needing attention of installation

In order to ensure the reliable performance of the equipment and the safety of the user, please observe the following matters during the process of installation, use and maintenance.

- Please do not use this product in the following places: the place of dust, soot and electric conductivity dust, corrosive gas, combustible gas; the place exposed to high temperature, condensation,wind and rain; the occasion of vibration and impact. Electric shock, fire, wrong operation can lead to damage and deterioration to the product, either;
- Should avoid wiring and inserting cable plug in charged state, otherwise it is easy to cause the shock, or electrical damage;
- The installation and wiring should be strong andreliable,contact undesirable may lead to false action;
- This product grounds by the grounding wires. To avoid electric shocks, grounding wires and the earth must be linked together. Before the connection of input or output terminal, please make sure this product is correctly grounded;
- Only after cutting down all external power source, can install, wiring operation begin, or it may cause electric shock or equipment damage;
- Please do not dismantle the equipment, avoid damaging the internal electrical component.
