

# Tedee Keypad PRO

Unlock your Tedee PRO or Tedee GO with a fingerprint or PIN.

Enjoy the next level of keyless living, with security at your fingertips! Use this new biometric Keypad PRO to unlock your Tedee PRO or Tedee GO smart lock with a fingerprint or PIN—no app or smartphone needed!

Unlock your door with a simple PIN or fingerprint, eliminating the need for keys or mobile devices, perfect for quick and secure everyday access. Manage up to 100 PINs and 100 fingerprints, each with customizable access permissions, ideal for families, guests, or employees. Easily generate new “virtual keys,” edit, or revoke access permissions via the Tedee app, with each activity logged for tracking.

Lock the door from outside without keys or devices by simply pressing a button on the Tedee Keypad PRO, with or without a PIN. Pair with the Tedee Bridge and a compatible channel management platform to automate self-check-ins for short-term rentals.

Install outside—even outdoors—with wireless battery power or permanent wired connection. Mount on smooth or porous surfaces using the adhesive pad or included screws.

## Features

<b>Security at your fingertips</b> Manage access with up to 100 individual fingerprints, each labelled for activity tracking and customizable with access permissions.	<b>The key that's always with you</b> Lock and unlock the door with a secure 5-8 digit PIN. Share customized access with up to 100 active codes for guests, visitors, or employees.
<b>Install in minutes</b> Mount wirelessly using batteries and an adhesive pad—or opt for a permanent wired power supply and a wall plug mounting.	<b>Simple protection</b> With no PINs stored on the device and encrypted, non-sensitive fingerprint tokens, enjoy enhanced security with a device designed solely for your protection.
<b>The final smart touch</b> Discover the premium Tedee smart keypad with a discreet, slim design in matte black or white finishes.	<b>Make your rental smart</b> Transform short-term rentals with flexible, self-service check-ins. Let guests arrive at their convenience and use PINs instead of keys.
